ADDITIONAL INFORMATION

This is a co-license base on original SGS type examination certificate No.: NB2906.2023.000082.

All models are identical on circuitry design, PCB layout, electrical components used, internal wiring except difference mentioned below:

1. LPA: Low noise & Power amplifier Unit.
2. "XX": transmission power level, unit dBm; The value ranges from 30 to 46 Example: 46 represents the transmitting power level of 46dBm.
3. "XX" represents operating Band (the serial number of Operating Band/NR should comply with 3GPP standard definition)
Example: N78 indicates LPA configuration Band/NR 78 (UL :3400~3800 /DL:3400~3800MHz).
4. "XX" represents the joint type information, NF indicates ANT Port is N Female connector.
5. XX represents customer code; The customer code contains digits 01 to 99 and letters.
