

PROSE

PROSE Structured Cabling Solution

As a professional basic network service solution provider, PROSE has been committed to providing customers with professional and reliable products for physical layer basic network construction, a complete set of "one-stop" basic network infrastructure solutions, and intelligent network management system.

PROSE Digital World product line not only has a strong software and hardware R&D team, but also has the ability to quickly respond to engineering services. In addition, we can also provide a complete set of customized basic network solutions for customers.

PROSE Cabling System Advantages:

• Reliability

Performance far beyond the domestic and international standards, to ensure the system 7*24 hours stable and reliable.

• Compatibility

The standards-based open system can be horizontally compatible with the equipment of different manufacturers and vertically compatible with the products before and after the upgrade.

• Maintainability

Friendly design, adapt to the needs of on-site maintenance and upgrading, easy to operate.

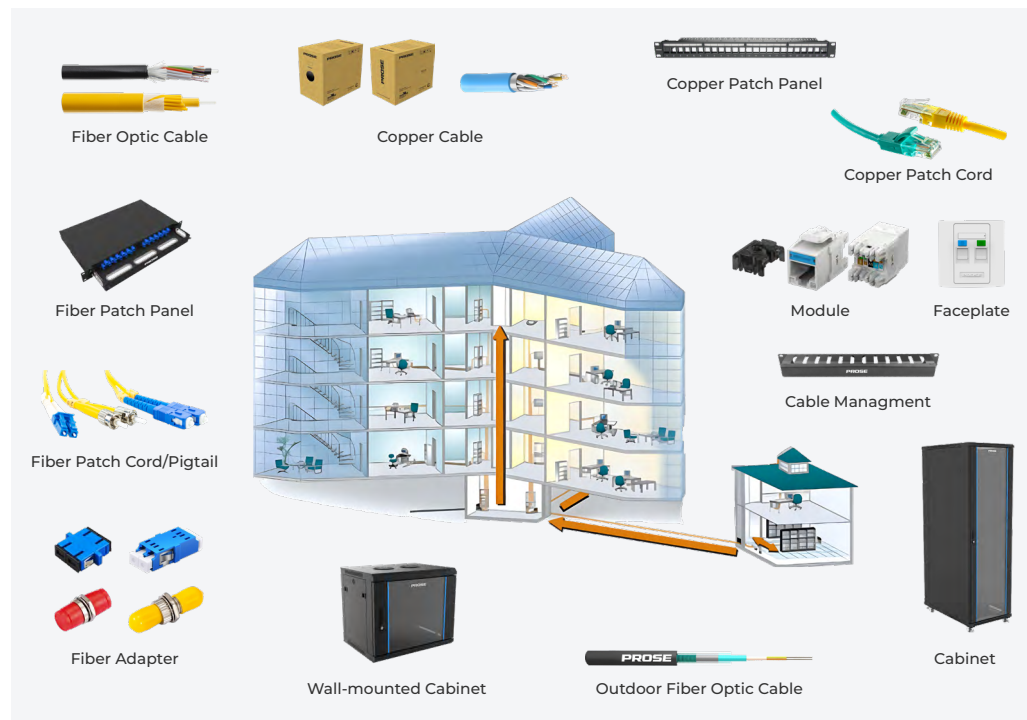

• Scalability

Fully consider the possibility of future business growth and support future expansion requirements.

Building & Campus Cabling System

Key Features:

- Full cabling system solution
- Professional customization
- Cost-effective
- Fast delivery
- On-site training and testing

Data Center Cabling System

Key Features:

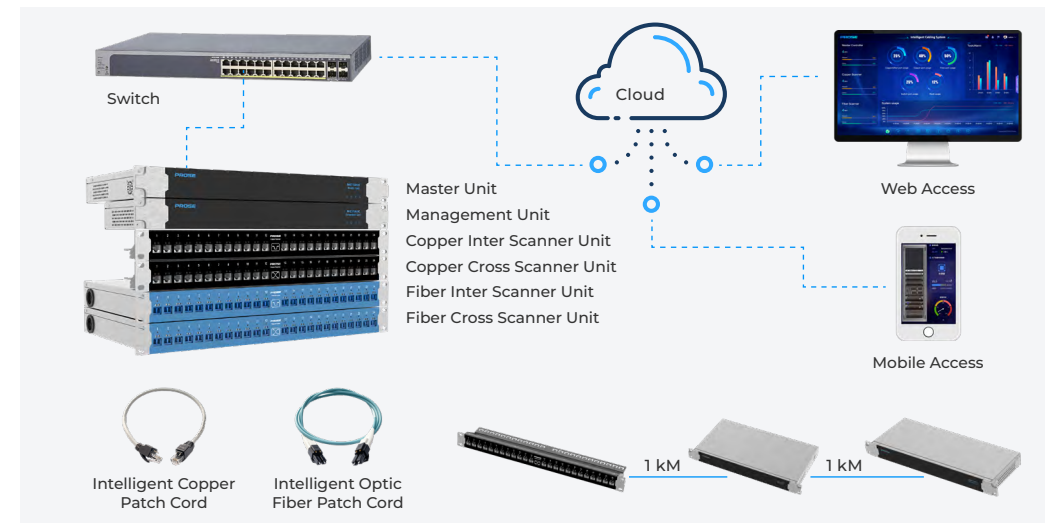

- Data center cabling system
- High performance and reliability
- Easy to upgrade
- Fast delivery
- Modular design, fast installation
- On-site training and testing

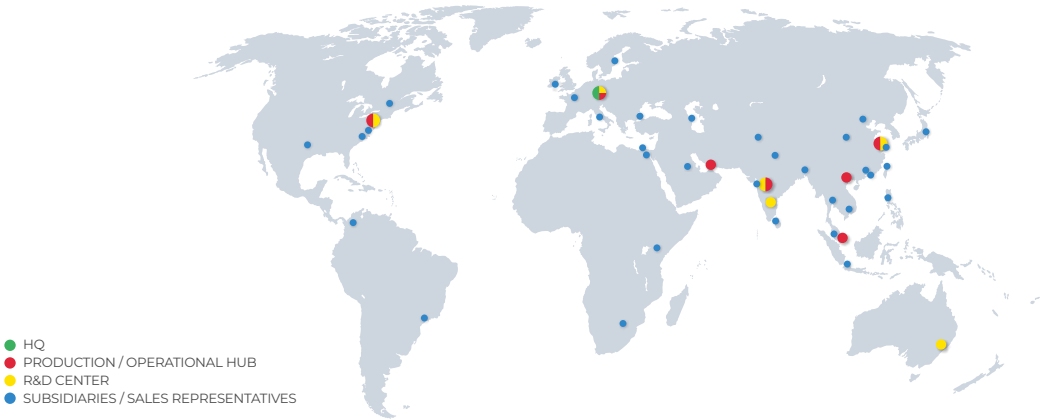

Intelligent Cabling System

Key Features:

- Real-time capability - To prevent delays in management
- Logicity - To avoid inefficient management
- Centralization - To minimize excessive investment of labors
- Security - To detect the intrusion of unauthorized devices

Global Footprint
