

Description

PROSE ABS horizontal cable manager is designed to provide efficient and flexible cable organization in structured cabling systems. Made from high-quality ABS material, it is lightweight, durable, and resistant to impact. The finger duct design enables easy cable routing, quick access, and neat management, improving overall cabinet appearance and airflow. Suitable for standard 19-inch racks in data centers and network environments.

Key Features

- Durable ABS plastic construction provides lightweight and long-lasting performance.
- Flexible fingers design ensures efficient cable organization and easy access.
- Smooth rounded edges protect cables from abrasion and damage.
- Standard 19-inch mounting compatible with cabinets and racks.
- Snap-on cover design allows quick installation and maintenance operations.

Product Appearance

Standard (ABS Plastic)
