

Description

PROSE 1HU 24 ports modular patch panel is designed for high-performance structured cabling systems, providing a reliable and efficient solution for network terminations and management. Featuring a durable hybrid construction of metal base and plastic front panel, it ensures excellent mechanical strength, stability, and long-term reliability. Compatible with standard 19-inch racks, it supports flexible installation and easy cable organization. The clearly labeled ports enable quick identification and maintenance.

Key Features

- It is made of high-quality engineering plastics and steel plate materials, featuring high overall strength.
- With rear cable manager which makes cabling managements easier and more convenient.
- Convenient and clear marking for easy installation and maintenance.
- Be compatible with various RJ45 keystone jack.
- Compliant to ISO/IEC11801.

Patch Panel, Metal & Plastic, Without Dust Cover

Technical Parameters

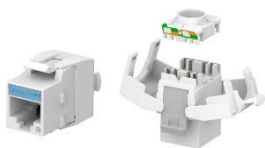

|                       |                                      |
|-----------------------|--------------------------------------|
| Size                  | 482.6mm*93mm*43.8mm(1U)              |
| Material              | Metal (body) & Plastic (front panel) |
| Color                 | Black (RAL9005)                      |
| Accessories           | 4pcs M6*12 screws & nuts             |
| Operating temperature | -10℃ to +60℃                         |
| Relative humidity     | 10%-90%                              |
| Net weight            | 0.55kg                               |

Optional Configuration

|                                            |                    |
|--------------------------------------------|--------------------|
| RJ45 Keystone, Unshielded, Punch-Down Type | Cat5e, Cat6, Cat6A |
| RJ45 Keystone, Unshielded, Toolless Type   | Cat5e, Cat6, Cat6A |
| RJ45 Keystone, Shielded, Toolless Type     | Cat5e, Cat6, Cat6A |
