

Description

PROSE 1U 24-Port Angled Patch Panel is designed for high-density copper cabling, featuring an angled port layout that streamlines cable routing and reduces congestion. It improves airflow and minimizes bend stress, while its robust metal construction ensures durability, stability, and reliable performance in professional network environments.

Key Features

- Angled design for improved cable routing efficiency
- Reduces cable stress and minimizes bend radius issues
- Durable metal frame ensures structural strength
- Clear labeling supports quick identification and maintenance
- Be compatible with various RJ45 keystone jack.
- Compliant to ISO/IEC11801.
