

Sustainability Milestone: PROSE Earns Top 35% in 2025 EcoVadis Assessment

Donauwörth, Germany – PROSE Technologies proudly announces a significant milestone in its sustainability journey, achieving an improved EcoVadis score with a 5-point increase from last year. This advancement places PROSE in the top 35% of companies assessed globally, reaffirming its commitment to responsible business practices and sustainable corporate operations.

Raising the Bar for Sustainability

This year's EcoVadis assessment highlights PROSE's ongoing efforts in environmental protection, labor and human rights, ethics, and sustainable procurement. The improved ranking reflects the company's strengthened sustainability initiatives, enhanced policies, and commitment to ethical business conduct.

Proactive Steps Driving Sustainability

PROSE's improved EcoVadis ranking results from several targeted actions aimed at enhancing its sustainability performance:

- **Optimizing Environmental Management:** Reduced energy consumption and carbon emissions, along with improvements in environmental risk assessment and emergency response mechanisms.
- **Enhancing Labor & Human Rights Protection:** Upgraded employee health and safety management policies and strict enforcement of anti-child labor and anti-forced labor policies.
- **Strengthening Business Ethics:** Increased information disclosure and stakeholder communication, along with enhanced anti-bribery policies and compliance management.
- **Promoting Sustainable Procurement:** Improved supplier access policies and audit processes, reinforcing a commitment to green procurement and sustainable development.
- **Continuous Innovation & Improvement:** Upgraded management systems and processes to drive long-term sustainability and operational efficiency.

Journey to a Greener Future

As PROSE continues to lead sustainable innovation, the company invites industry partners, customers, and stakeholders to collaborate in building a more responsible and environmentally friendly future.
