

CHINA CERTIFICATION & INSPECTION GROUP JIANGSU CO., LTD.

STATEMENT OF GREENHOUSE GAS VERIFICATION

STATEMENT NO: GHG-CCICJS-039

PROSE Technologies (SUZHOU) CO., LTD

Organizational Boundary: PROSE Technologies (SUZHOU) CO., LTD

(No.6 Shen 'an Road, Dianshanhu Town, Kunshan City, Suzhou City, Jiangsu Province, China)

Report Boundary: Direct and indirect greenhouse gas emissions, from the design, production, and management of radio frequency coaxial products, communication passive systems, active wireless coverage systems, base station antenna systems, microwave antenna systems, integrated cabling products, and data center infrastructure products and solutions provided by PROSE Technologies (SUZHOU) CO., LTD

Guaranteed Level: Reasonable Level of Assurance

It has been verified by China Inspection and Certification Group Jiangsu Co., Ltd.

according to ISO14064-3:2019 and meets the requirements of ISO14064-1:2018.

After verification, the Greenhouse Gas Emission from January 1st, 2023 to December 31st, 2023 was 189965 tonnes CO₂ Equivalent. Including:

Direct Emission: 66.22 tonnes CO₂ Equivalent

Indirect Emission From Energy Inputs: 3569.22 tonnes CO₂ Equivalent

Indirect Emission From Transportation: 1991.54 tonnes CO₂ Equivalent

Indirect Emission Caused By The Organization Products: 66936.9 tonnes CO₂ Equivalent

Indirect emissions caused by the use of the organization's products:
117400.6 tonnes CO₂ Equivalent

Indirect Emission From Other Category: 0 tonnes CO₂ Equivalent

Base Year Information: January 1st, 2021 to December 31st, 2021, it is the base year for the quantification and reporting of Greenhouse Gas of PROSE Technologies (SUZHOU) CO., LTD. This is based on 2021 as the base year, PROSE Technologies (SUZHOU) CO., LTD. Preparation of greenhouse gas inventories and reports for the first time, All data is collected from January 1st, 2023 to December 31st, 2023. Emission status is shown in the Greenhouse Gas Inventory Report (2023) of PROSE Technologies (SUZHOU) CO., LTD. issued on May 17, 2024
